

## Job Description - React Developer

---

### ABOUT THE PROJECT AND THE TEAM:

The largest fashion retailer in Israel is thinking as big and innovative as we are; so, we joined our forces into expanding their aim into reality.

You will work in a growing team in charge of maintaining and expanding the features of the online shop. The main objectives are to expand the features of the online shop and also optimize the processes between the web-shop and other business key-components like ERP, CMS, Warehousing, electronic payments, customer loyalty system, etc.

At the moment, the web-shop is starting the migration process to React for the Front-end sections. In order to achieve this, we are looking for a great JavaScript developer who is proficient with React.js.

Your primary focus will be on developing user interface components and implementing them following well-known React.js workflows.

You will ensure that these components and the overall application are robust and easy to maintain.

### RESPONSIBILITIES:

- Developing new user-facing features using React.js
- Building reusable components and front-end libraries for future use
- Translating designs and wireframes into high quality code
- Optimizing components for maximum performance across a vast array devices and browsers

### SKILLS:

- Strong proficiency in JavaScript
- Thorough understanding of React.js and its core principles
- Experience with popular React.js workflows
- Knowledge of isomorphic React is a plus
- Familiarity with RESTful APIs
- Familiarity with modern front-end build pipelines and tools
- Experience with common front-end development tools such as Babel, Webpack, NPM, etc.
- Ability to understand business requirements and translate them into technical requirements
- A knack for benchmarking and optimization
- Familiarity with git

Location: Banu Manta (Metro Basarab station)
